

Cyber Warfighters Group Cyber Risk Score Card

This score card is a snapshot of your company's cybersecurity risk levels. Please score each statement with a "0" for NO or a "1" for a YES. Tally your score below. If you score less than 7 you are at Extreme Risk for Attacks!

- We have conducted a risk assessment within 6 months.
- We detect intrusions through mobile devices.
- We evaluate BYOD (Bring Your Own Device) policies annually.
- We maintain a strong password policy.
- We use multiple layers of protection to end devices.
- We have 2 factor authentications to protect our data.
- We update and patch applications daily.
- We secure Wi-Fi networks.
- We backup data offsite weekly.
- We train employees on security protocols.
- We update policies regularly.

Total Score (0 – 7 High Risk, 8 – 9 Moderate Risk, 10-11 – Low Risk)
